Guide: How to download transaction history from TD Ameritrade

- 1) Login to your TD Ameritrade account at www.tdameritrade.com
- 2) From the Home page, hover over “My Account”. In the drop-down that appears, click the “Transactions” link.

- 3) The History and Statements window will appear. Unfortunately, TD Ameritrade will not show a trading history longer than 1 year. So, you'll have to break your requests into successive 1-year periods and send me multiple Excel files, one for each 1-year period. (Come on, TD Ameritrade, you can do better!!) Make sure Type shows “All transaction types” and Symbol(s) is blank. Click the Download button.

History & Statements

Transactions	Statements	Confirmations	Shareholder Library
---------------------	------------	---------------	---------------------

Type:

Symbol(s): [Symbol lookup](#)
(separate symbols with commas)

View: [1 day](#) [7 days](#) [14 days](#) [60 days](#) [Current Year](#) [Previous Year](#)

- 4) TD Ameritrade will generate a CSV file which will download to your PC. It will be named “transactions.csv”.
- 5) Repeat steps (3) and (4) above. When all Excel files have been generated, place them in a ZIP file. Send this ZIP file to shaun@torpedotrading.com and I will proceed with the trade analytics.
